LITHIUM — Could it be Nature’s “Miracle Mineral”??

Remember the “Energizer Bunny” that just “Keeps on Going, and Going, and Going”? Disposable batteries such as the “Energizer” are composed of the mineral Lithium. Lithium is an incredible energy-releasing mineral. It is element #2 on the periodic table of the elements, and, like Element #1—the incredibly essential element named Hydrogen, it readily gives up its electrons to the human cell, which in turns allows the cell to perform a myriad of complex biological transmutations that keeps the human body balanced and healthy.

Lithium may well be the most studied and researched natural mineral during the past decade. Worldwide studies have linked Lithium

deficiencies to a wide range of health conditions and chronic diseases. Clearly, the brain must have Lithium ions available in order to function properly. Research has linked various conditions, including Alzheimer’s and Bi-Polarism to Lithium deficiencies, and supplementation of Lithium has shown to be effective in helping reverse these conditions.

While Lithium in the form of Lithium Carbonate has toxicity and is a “controlled drug” by the FDA - the water-soluble Lithium Orotate (bound to Orotic Acid) is extremely safe, non-toxic, hypo-allergenic, and does not interfere nor interact negatively with prescription drugs. Therefore, at least for the time being, Lithium Orotate is approved by the FDA as a dietary supplement, and when

taken as instructed, can be very effective in preventing and possibly reversing numerous condition.

Dr. Russell Blaylock, in his landmark book “Excitotoxins, the Taste that Kills” has shown that MSG, Fluoride, and other poisons cause the neuron pathways in the brain to become damaged and even destroyed. Recent studies have concluded that Lithium actually rebuilds and grows the NEW neuron structures in the brain. This may explain why Lithium may help so many neurological disorders.

Secret Assassins in Food

Did you know there are numerous studies showing that Monosodium Glutamate (MSG) actually causes the human metabolism to slow and become sluggish resulting in rapid weight gains? If so, then do you know how

MSG has been cleverly hidden in virtually all processed foods on the store shelves today? Secret Assassins in Food will show you that eliminating MSG from foods is simply not enough, just because it is not listed on the product

label, doesn’t mean that MSG is not present in the product in massive amounts.

Alzheimer's drugs cause brain damage and actually worsen memory

Big Pharma drugs that are being used on humans right now and promoted as potential treatments for Alzheimer's disease (AD) could cause the very brain damage and memory loss they are supposed to treat. That's the conclusion of University of California at San Diego (UCSD) scientists who just published their groundbreaking findings in the Proceedings of the National Academy of Sciences.

The results from several high tech methods to investigate nonamyloidogenic peptides (formed by drugs being tested for AD therapies) showed that the peptides created active ion channels that caused brain cells to

take in very high levels of calcium ions, eventually killing the very neurons needed for memory. **To make matters worse, biomedical researchers have long considered these brain cell-killing nonamyloidogenic peptides to be non-toxic and targeted them as potential Alzheimer's treatments.**

These revelations are startling to say the least for those with loved ones or facing Alzheimer's themselves. It goes without saying, that without our mental faculties quality of live significantly decreases, and we hope everyone will take their brain health seriously and give their body the nutrition it needs to keep themselves healthy.

Beauty Has Never Been so Easy! Announcing New Product: Bonita

Millions of people have trouble with unhealthy hair, skin, and nails. Almost always stemming from deficiencies in specific vitamins and nutrients. When deficiency occurs, your body has no choice but to shut down the areas that are fueled by those nutrients. Your hair, skin, and nails all use the same sources to grow healthy and strong. Namely collagen.

Bonita is scientifically formulated to not only provide your body with the right nutrients to help hair, skin, and nail health, but it super charges your collagen production.

Bonita contains: Vitamin A, C, B6, B12, Riboflavin, Niacin, Folic Acid, Pantothenic Acid, MSM, Inositol, and most importantly Biotin.

Biotin is an essential part of Bonita. It promotes healthy hair growth and protects against dryness, and much more. For more info, call or visit us on the Web.

What Exactly are O.T.T. Drops, and What do They Do?

As Dr. William Frederick Koch discovered nearly a century ago (see www.williamfkoch.com) combining highly alkaline "Carbonyl" mineral elements with natural citric acids resulted in a natural chain reaction with carbon (I.e. sugar) and iron particles producing elevated quantities of singlet oxygen ions in

the blood and tissue cells. This is what is accomplished by the O.T.T. drops as well. The Oxygen Treatment and Therapy (O.T.T.) product consists of two .5 ounce bottles. One bottle contains a "reagent" or highly alkaline solution of concentrated minerals, while the other bottle contains a 50%

concentration of natural citric acid solution. When combined together in equal parts, the elements combine to form hydrochlorous acid compounds that when consumed as instructed result in highly effective and elevated OXYGEN in the body.

Mother Earth Minerals Product Highlights

Corona Discharge Negative Ion Generator

Numerous independent tests confirm that Negative Oxygen Ions may help the body eliminate depression, while strengthening the immune system in a powerful way to improve symptoms of asthma, colds, and flu. Negative Ions can be found in large quantities before and after lightning storms, in the vicinity of waterfalls, mountains, and in pine forests. **NOW THEY CAN BE FOUND IN LARGE QUANTITIES IN YOUR HOME OR OFFICE!** Our generator produces over a trillion negative ions per second!

Mini-Classic II Portable Distiller

This day and age the quality of the world's water has been greatly diminished. Factories and cars pollute the air and in turn contaminate our water supplies. With the quality of most water in question, it's important to make sure to give yourself and your family the highest quality water possible. To aid in this, we offer HQ Distillers, and the Mini-Classic has been a favorite, as it is small enough to fit on the kitchen counter.

Potassium

Potassium is an essential element for plant and animal growth. The Potassium ion is the precursor to all human and animal growth hormones. Potassium works with Sodium, Cobalt, Oxygen, and Hydrogen on the cellular level to produce a vast array of biological transmutations - naturally producing Vitamins for health and well-being. Potassium deficiencies result in lethargy, aching muscles, brain fog, and malaise, a general lack of energy. Potassium helps regulate heartbeats.

Liposomal Vitamin C Now Available

Vitamin C is one of the most recognizable and commonly used health supplements in the world. Its uses and benefits for health are many. Still, Mother Earth Minerals is dedicated in providing our supplements in forms easily absorbable and usable by the body, and like our line of minerals, we wanted a unique and powerful delivery system for Vitamin C.

With this goal in mind we went to work and we are proud to announce that we have succeeded with Liposomal Vitamin C in liquid form.

Liposomes are wonderful. They are a delivery device for healthful ingredients directly into the bloodstream.

Our Liposomes are designed to be stable under a high acid environment (stomach) and are geared to reach the

middle GI tract. The goal is absorbability into the intestinal wall and into the bloodstream.

Creating ULTIMATE ELEMENTS

*Call us Today!
1-866-989-9876*

Mother Earth Minerals Inc. (MEM) provides information and nutritional counseling to a growing number of individuals seeking answers to health care puzzles, and was founded by A. True Ott, PhD, in December, 1998. All intelligent life on Planet Earth is governed, either for good or evil, by electromagnetic impulses on the cellular level. The great healers throughout recorded history have had one thing in common, they understood how these impulses operate and were able to successfully harness them for the benefit of mankind. MEM is dedicated to the positive exploration and public dissemination of this vital, lost knowledge. Remember, MEM's the WORD!

When Life gives you Lemons, it's Time For Lemonade!! By A. True Ott, PhD

It is impossible to create any action that does not have value. You may not see it, but that is irrelevant. Live in the trust that when it is appropriate, pieces will fall into place and you will see clearly. —*Thoughts from the Seat of the Soul—Gary Zukav.*

We live in a truly remarkable era. Technology is exploding at a breakneck speed, often times faster than society can determine how best to keep the massively powerful Genie in the bottle. Will new technological advances become mankind's servant, or will it become its master? Nowhere is this question more relevant than in the incredible field of Nano-technology. Nano-scale microchips are now the 1/200

the width of a human hair, and are being placed into drug capsules and vaccine needles. A key component of ObamaCare is the tracking of Americans via Nano-Bio-Chips—where virtually any resemblance of personal privacy will be lost. Additionally, the National Security Agency (NSA) is currently building a state-of-the-art multi-billion dollar “data-collection center” in Utah which will be housing the newest generation of human-tracking super computers. One can only imagine what America's (and the Worlds”) future holds when nano-bio-chips are fully employed.

At right: Rice Professor John McDevitt holds the LabNow device to read nano-bio-chips that will look for signs of oral cancer and other diseases. (Credit: Jeff Fitlow)
